- Creation of a semantic model
- Usage of the Model Explorer
- Discovery of contextual menus
- Usage of properties Views
- Discovery of other Views

Exercises

- Create a new Modeling Project
- Navigate through this model

Duration: 0.5h

4 - Diagram representation

- Principle
- Palette
- Toolbar
- Implicit tools
- Layers and filters
- Layout and formatting
- Edition
- Elements search

Exercises

- Create diagrams

Duration: 1,5h

5 - Other kinds of representations

- Tables
- Trees
- Matrices

Exercises

- Create a table
- Create a tree
- Create a matrix

Duration: 1h

6 - File-based collaborative work

- Principles
- Fragmenting a model into files
- Un-fragmenting files

Exercises

- Fragment a model into several files

Duration: 1h

7 - Collaborative work with OD Team

- Principles
- Sharing a model on a server
- Locks
- Comparing models

Exercises

- Share a model with other users

Duration: 1h
